NSPRD024 Spring Return

Round Zone Damper (24 Volt)

**DESCRIPTION:**

DuroZone NSPRD024 Spring Return Dampers can be configured for either Spring Open or Spring Closed operation. The Spring Closed side is identified S.C. or N.C. (normally closed) and the Spring Open side is identified S.O. or N.O. (normally open). All NSPRD024 dampers are shipped in the Spring Open (S.O.) position. To change to Spring Closed (S.C.) operation, simply unscrew the allen screw and nut and remove the motor. Then close the damper blade and reinstall the motor on the opposite side and tighten the allen screw onto the shaft and the nut on the bracket.
